AAP/API Onboarding Process – Hiring Manager Guide

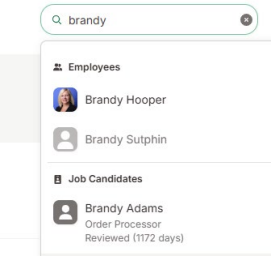
This Onboarding Process outlines the required steps Hiring Managers must complete to properly prepare a new hire for their first day. From completing the Position Request in BambooHR to coordinating IT access, facilities, equipment, and department-specific needs, this process ensures compliance, accuracy, and a smooth onboarding experience across all AAP/API divisions.

1. Confirm Written Offer Completion

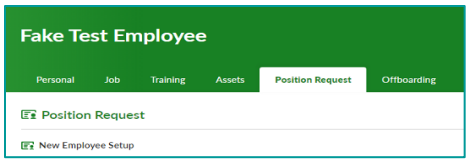
- After the written offer is signed, HR will send the candidate the required Background Check Authorization form to complete.
- Once the candidate completes the authorization form, HR updates the candidate's status in BambooHR to *Future Employee in Process.*
- The Hiring Manager will receive an automated BambooHR notification when the status changes.
- Background check and drug screen processing begins after the authorization form is completed and the status is updated.
- Onboarding begins only after HR confirms the status update to *Future Employee in Process*.
- If you have not received the notification within 1 business day, contact HR.

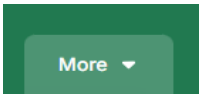
2. Access the Position Request in BambooHR

- Log in to BambooHR.
- Search for the future employee's name.
- Select future employee name under **Employees**, not Job Candidates.



- Open the Position Request tab. The tab may appear under the More tab.





- Review Onboarding Process Reference Guide

3. Complete Required Position Information

Enter the new employee setup information:

- Position Request Type
- Position/Title
- Division (AAP or API)
- Office location
- Reporting Manager
- Preferred Start Date
- Preferred Name for Display (Used for BambooHR and internal directories – and, if applicable, the employee's email display name/signature. Example: Mike McNair instead of Michael McNair.)
- New Employee Setup Notes

Submitting this request triggers notifications to HR, IT, Marketing, Facilities, and Division Leads to begin setup and onboarding actions.

Enter the Pre-Boarding Request:

Request only what is needed for Day 1 (or within the first 30 days) for the role.

- **Company cell phone** – Provide a company-issued phone/number.
  Request when: role is on-call, travels frequently, needs MFA/auth apps for work, or must be reachable after hours (ex: managers, IT, sales, delivery-related leadership).
- **Company credit card** – Company purchasing/travel expenses on an assigned card.
  Request when: employee will book travel, pay vendors, purchase supplies, or submit reimbursable business expenses regularly (typically managers/directors; requires approval).
- **Company vehicle or transfer** – Assign a company vehicle or transfer an existing vehicle assignment.
  Request when: role requires routine travel between sites, deliveries, vendor visits, or frequent offsite work (approval required).
- **AAA coverage** – Roadside assistance coverage for a company vehicle (or required travel role).

Request when: employee is assigned a company vehicle or has frequent business driving requirements.

- **Workstation type (desktop or laptop)** – Hardware setup for the employee.
  Request when:
  - Desktop: primarily onsite with a fixed workspace
  - Laptop: hybrid/remote work, travel, meetings across sites
    (IT will confirm model/standard equipment.)
- **Concur access / business cards / marketing introduction**
  - **Concur access:** travel and expense reporting
    Request when: employee will travel or submit expenses.
  - **Business cards:** printed/digital cards
    Request when: customer-facing/vendor-facing role, recruiting/community outreach, sales, leadership.
  - **Marketing introduction:** internal/external "welcome" announcement support
    Request when: leadership role, customer-facing role, or location wants a formal intro.

Enter the Onboarding Request:

- **Building key** – Physical key for the building/exterior access where applicable.
- **Office key** - Key for a specific office, room, cabinet, or secured interior space.
  Request when: employee has an assigned private office or secured workspace.
- **Badge / door access** – Badge credentials and electronic access permissions.
  Request when: needed for any site requiring controlled entry; specify areas/doors if role-restricted.

Submitting these will automatically route a request to Facilities for setup based on location.

Enter the Warehouse Onboarding Request (for warehouse roles only; if applicable):

- Select warehouse role type.
- Choose warehouse location.
- Request AS400 or S2K system access.

Enter the IT Account Setup Requirements (if applicable):

- Active Directory and email setup.
- AS400, S2K, Adobe, Dynamics, MapiLab.
- Zoom phone, website access, VPN.
- Remote hire equipment shipment.
- Additional IT needs notes.
- Shipping information for equipment (if necessary)

4. Review & Submit the Position Request

- Submit completed form.
- BambooHR triggers IT ticket and all internal workflows.

5. Coordinate First-Day Details (Pre-Start)

- Confirm start date/time, location, and supervisor with HR (and the employee).
- Workspace + equipment ready (desk, badge/keys, laptop/desktop, headset/monitors if needed) or confirm remote delivery.
- Orientation plan + schedule: send the employee a Day 1 agenda (who/where/when).
- Team introductions: notify team of the start date and who will support onboarding/training.

6. First Day Expectations

- Welcome the new employee (quick tour + introductions).
- Review the Day 1 schedule and what “success” looks like this week.
- Confirm access is working: email, BambooHR, required systems, and shared drives.
- Cover essentials: work hours/breaks, attendance expectations, safety basics, communication norms.
- Start role training: job overview, priorities, key processes, and who to ask for help.
